

FEATURES

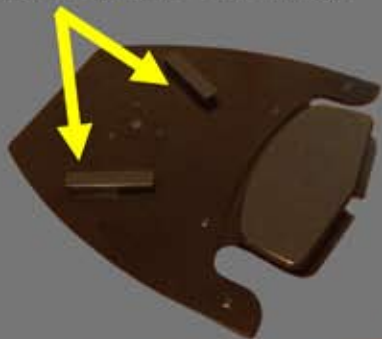

Two Risers for Structured & Unstructured Caps.

Adjustable Height of Cap Risers with Additional Spacer.

Spring Loaded Bill Holders for Easy Loading / Unloading.

GT Cap Platen for Brother GT-3

Open up a new market of sales with your Brother® GT printer by offering decorated caps to your customers. Made to match the industrial strength of your GT printer, the GT Cap Platen can be used to print on most structured and unstructured caps.

Print on front, back, top and bottom of the bill of caps quickly and easily. Slide the bill of the cap under the spring loaded bill holders and pull back to the cap risers. Then use the black clips to get the crown of the cap on the as flat as possible. It is truly that simple to print on caps.

NEW: Cut-outs for holding down the bill for a larger printable area.
