THE BLUE ANGEL AWARD THE GERMAN ECOLABEL

The Blue Angel is an environmental label awarded in Germany since 1978 for particularly environmentally friendly products and services. The strict criteria for the award is set by the German Federal Environment Agency. The label is awarded by a jury made up of representatives from environmental and consumer associations, trade, crafts, scientists and the federal states.

The purpose of the eco-label is to provide customers with reliable guidance for environmentally conscious purchasing. This is because targeted demand for environmentally friendly products promotes ecological product innovations and reduces environmental pollution.

The Blue Angel stands for independent, transparent and ambitious labeling.

The Blue Angel is a so-called TYPE I Ecolabel, which is based on the international standard DIN EN ISO 14024 "Environmental labels and declarations - Type I environmental labeling - Principles and procedures (ISO 14024:2018)".

It differs from product labels that only look at one criterion or are awarded by the manufacturers themselves by providing a comprehensive and independent award for the better products in a product group.

Trodat has already proven in the past that the topic of sustainability is very important to the company. And as anchored in the Trodat vision - **Trodat, sustainable stamp solutions: everywhere** - numerous activities are also planned for the future in the area of sustainability.

THE ORIGINAL TRODAT PRINTY 4.0 THE 1ST STAMP TO RECEIVE THE BLUE ANGEL AWARD!

THE AUSTRIAN ECOLABEL

The Austrian Ecolabel is an internationally recognised environmental seal of quality and is awarded to particularly environmentally-friendly products. This applies to product lines including: Trodat Professional, Original Trodat Printy, ink cartridges, handstamp pads and stamp inks.

WE ASKED STAMP USERS

We asked users what, in their opinion, makes a good stamp. There were some interesting responses. Thus we incorporated these ideas when we developed the Original Trodat Printy 4.0.

1. Clean replacement of ink cartridge thanks to special grip zone

3. Lightweight & small, perfect when you are on the move

WE ASKED RUBBER STAMP MAKERS

Numerous surveys with rubber stamp makers were carried out to identify what they expect from the ideal stamp. The valuable results have had a significant impact on the development of the Original Trodat Printy 4.0.

1. Simple mounting of text plates thanks to the raised position of the text plate holder

2. Easy to customise! Countless options for your logos and individual prints on the stamp housing

PIXEL STAMP

NEW
Available Q2/2025

The combination of Pixel Art and stamp by numbers!

PIXEL STAMP follows the paint-by-number principle, one template is filled with „pixels“ which are coloured by using stamps of different colors. Each pixel has an assigned number and each number has an assigned stamp colour. The templates have a surprise effect! Only after stamping on several pixels, the kids will recognize which image they will get.

TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE, PSI E-STYLE AND SUPER SLIM?

Improved Die Box:
Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

Trodat Flash Machine:
Quick & easy operation - not only foam, but whole die box can be flashed at once.

Convenient Inkling:
Fast & clean – no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

1-Step Assembly Maxlight:
The snap-in die box provides the simplest assembling possible.

1-Step Assembly PSI:
The slide-in die box provides the simplest assembling possible.

No Assembling Steps Super Slim:
Super Slim can be flashed and inked as a whole – no extra die box needed. Only the index card needs to be added as always.

For ordering and delivery of these products, please contact your Trodat sales consultant.

TRODAT CLASSIC

The models within the Trodat Classic line are timeless. They are available in various sizes. Whether you require the stamp to feature a date, number, text or the time, you will find the perfect traditional stamp to fit your needs.

The design reflects the modern, dynamic workplace and is a seamless addition to the existing Professional 4.0 and Printy 4.0 models. Honouring our commitment to sustainability, all plastic housings are made of ABS post-consumer recycled materials and manufactured in Austria.
